K&S BASIC

SIMPLE ENERGY

Dimax Int. GmbH (Germany) proudly presents a gasoline wood chipper shredder from "K&S Basic"

Dimax Int. GmbH (Germany) expands the range of garden equipment and presents a gasoline wood chipper shredder from "K&S Basic". The wood chipper shredder will help you easily get rid of debris left from cutting off dry tree branches and trimming of shrubs. Waste recycling will not only save your money, but also conserve natural resources.

Gasoline wood chipper **KSB 300WS**

Engine power	6.5 HP
Engine start	manual
Number of cutting knives	6 pcs.
Max. chipping capacity	76 mm
Chip ejection height	760 mm
Output chips size	5-10 mm
Blade speed	2400 rpm
Engine type	gasoline
Engine volume	196 cm³
Engine model	KS 230
Engine speed	3600 rpm
Fuel tank volume	3.6 L
Crankcase volume	0.6 L
Wheels	10"
Net dimensions	610x510x850 mm
Net weight	63 kg

Proprietary engine

Reliable gasoline engine meets all European quality standards, including the latest EURO V emission standard.

Powerful cutting mechanism

Large feed hopper simplifies feeding of material to be shredded, with a powerful cutting mechanism consisting of 6 high-speed blades.

Additional feed hopper

The shredder has an additional low-mounted opening for easy feeding of long branches

Outlet hopper

Outlet hopper has an adjustable ejection height of the shredded material.

Pneumatic wheels

Wood chipper shredder is equipped with wheels for easy movement even on uneven surfaces, for example, on gravel or soil.

* Protective kit includes polycarbonate glasses, safety gloves, and ear muffs

THE BEST CHOICE FOR HOME USE!
